

Intern WALL OF FAME

Jonathan Maderer (Business-Finance, Senior)
Snack Shack CEO
Business Club Snack Shack Thompson Hall

I learned how to run a small business as well as how to please customers and how to work well with others. I gained real-world experience that I was unable to gain in a classroom. I would rate my internship experience as excellent and would recommend this internship to anyone and everyone. Internships are great hands-on experiences and look very good on resumes. Before you graduate, some form of an internship would be beneficial to all. Use the Career Development services. It is a great resource that is often over looked. The counselors are kind people who are always willing to help.
