

# Intern WALL OF FAME

**Heather Williams (English, Senior)**  
Leadership Resource Center Intern  
Leadership Resource Center

My name is Heather Williams and I am a senior English major with two minors in Leadership Studies and Communication Disorders. I am currently the intern in the Leadership Resource Center. I absolutely love this internship because I have learned so much as well as developed a new network of associates and colleagues. This internship will help me with my career goal in becoming a teacher. I want to be able to teach young children between the ages of birth through second grade. To be an excellent educator one must be a great communicator, organized, approachable, and finally yet importantly to have an abundance of patience. So far this internship has shown me how to communicate well by hosting events for RA's and RD's and club E-board members. I have always been patient and organized but this internship has helped me to become better rounded. I have become very pleasant with my fellow classmates and I feel more comfortable speaking in front of people.

I would definitely recommend this internship to other students because it allows you to gain new skills as well as to sharpen the ones you already have. It also allows you to show your creativity for some of the assignments you have to do. I would tell other students to just be yourself and to work hard for what you want. If you are given the opportunity to do something positive then go for it you have nothing to lose. If you find something difficult do not hesitate to ask someone who knows the answer.
